“

Everyone I have dealt with at Cancer Guardian has provided empathy and much needed support during my journey after having been diagnosed with my illness.

Their care and concern shines through in all that they have provided... allowing me to talk through my emotion, providing resources so I learn more about my rare illness, calling weekly to see how I am doing and if I am staying on track with my goals...and being by my side physically when visiting my doctor.

I am extremely grateful and comforted to have them on my team...
