

Round out your healthcare coverage with Dental Insurance.

Keep the cost of dental care in check.

- Cleanings and exams
- X-rays and fillings
- Crowns and root canals

Dental services can be expensive. With **MetLife Dental Insurance**, you get protection against costs for unexpected dental care, plus low or no costs for preventative care.¹

When your preventative care is covered, you're more likely to go for cleanings and checkups, which can help you avoid problems before they become too costly or complicated.

Plus, going to the dentist regularly can help prevent problems that have been linked to diabetes or heart disease.²

Hypothetical savings example when visiting a participating dentist³

Service	Dentist's usual fee	Negotiated fee	Percent covered	MetLife pays	Out-of-pocket cost	Savings ^{3,4}
Exam	\$122	\$55	100%	\$55	\$0	\$122
X-rays	\$167	\$74	100%	\$74	\$0	\$167
Filling	\$179	\$82	80%	\$65.60	\$16.40	\$162.60
Root Canal	\$1,446	\$662	80%	\$529.60	\$132.40	\$1,313.60
Crown	\$1,540	\$694	50%	\$347	\$347	\$1,193

Consider this scenario:

*While eating dinner one evening, I bit down and broke a tooth. The next day, I saw my dentist and learned I needed a crown. I know that a crown usually costs about \$1,540.⁵ Thankfully, my dentist participates in the MetLife network and has agreed to provide the service for \$694 for MetLife enrollees. My **dental insurance plan** covers 50% for this procedure, so my out-of-pocket costs are only \$347. I paid less than a quarter of the typical cost—a savings of well over \$1,000!**
